

## **Summary of Approach to Data Collection**

| Survey fieldwork dates                    | April 2023 to March 2024  |
|---|---|
|   |   |
|   |   |
| Total Surveyable population               | 2,397   |
| - Становической подписанием               |   |
|   |   |
| Statistical confidence required and       | Required: 4% margin of error at 95% confidence level (i.e requiring a     |
| achieved                                  | minimum of 480 responses).  |
|   |   |
| Total sample size achieved (total number  |   |
| of responses)                             | 480   |
|   |   |
|   |   |
| Reasons for any failure to meet the       | N/A   |
| required sample size                      | N/A   |
|   |   |
|   |   |
| Collection method                         | Telephone survey (480)  |
|   |   |
|   |   |
| Compling mothed                           | Talanhana atratified compling   |
| Sampling method                           | Telephone stratified sampling   |
|   |   |
| Type and amount of any incentives         |   |
| offered                                   | None  |
| Number of tenant households within the    |   |
| relevant population that have not been    |   |
| included in the sample                    | None  |
|   |   |
| Summary of representativeness of the      |   |
| sample against the relevant tenant        | The sample achieved is highly representative of the tenant population, in |
| population                                | regard to age   |
|   |   |
|   |   |
| Any weighting applied                     | N/A   |
|   |   |
|   | 40 704 6  |
| Questions saked                           | 12 x regulatory TSM questions +3 x open comment questions after overall   |
| Questions asked                           | satisfaction , repair satisfaction and any additional comments            |
| Any other methodological issues likely to |   |
| have a material impact on the tenant      |   |
| measures reported                         | None  |
| ·   |   |
